PRINTED BY PORTER PRINTING CO.,
MOLINE, ILLINOIS.

PREFACE.

In issuing this, our second volume of UNFASHIONABLE CROSSES in Short-Horn Pedigrees, we do so believing it will meet the approval and receive the patronage of Short-Horn Breeders generally. We have taken great pains to make it as near correct and complete as possible laying all prejudice aside.

This volume contains a revised list that should have been included in our first volume. The descendants of Imported Animals that were imported without pedigrees, and those whose sires have no recorded pedigrees are included in the revised list, and to avoid much confusion we have classed them as *L R*, Lost Record pedigrees, or tracing to the same, with the exception of a few families that are more numerous and better known, and whose descendants have been crossed on many of the fashionable families, are classed separate and given a name or character signifying the family they descend from.

They are as follows :

Britannia, (without pedigree) Imported in 1837, by Henry Clay Jr., of Kentucky.

Beauty, (Vol. 15, A. H. B.) Imported in or about 1834, by Thos. Weddle, of N. Y., got by Favorite — (no number), dam by Comus (161), by Patriot (486), etc.

Multiflora, Imported in 1833, by Walter Dun, of Kentucky ; got by Walter 11118, A. H. B. (recorded under certificate); dam White Face by Roland (563), etc. See remarks to Dun Importation, Volume 1, of our work.

Milk Spring, (Vol. 22, A. H. B.) calved in 1835 ; believed to have been imported the same year ; got by Leander (4199); dam Young Blossom by Brigade Major (817); Blossom by Planet (1325), etc. The breeding of Imported Milk Spring is considered objectionable, and is evidently erroneous as her given sire Leander (4199) was not calved until 1838, three years after the date given of her birth.

Rose, Imported in 1833, by Wm. Jackson, of New York ; got by Skipton, 978 ; dam Red Rose by Young Cleveland (3401) ; Carnation by Apollo (36), etc. The pedigree of Imported Rose is also believed to be incorrect.

The bull *Rolla* (4991), and his descendants are also included. His pedigree as recorded reads thus : Bred by Col. Van Renssaller the property of Mr. Rotch, Butternuts, Otsego Co., N. Y. ; got by Admiral (1608) ; dam Romp by Admiral (1608) ; Moss Rose by Young Denton (693) ; Rosa by Young Denton (963) ; Ruby by Young Denton (963). Thus it will be observed that his pedigree as recorded does not descend on the dam's side to an imported cow, but is believed by some of the best authorities to be a direct descendant of Imported Tuberoze by North Star (460), (a cow of most excellent breeding) and that his pedigree *should* read : Got by Admiral (1608) ; dam Romp by Admiral (1608) ; Moss Rose by Young Denton (963) ; Rosa by Young Denton (963) ; Imported Tuberoze by North Star (460) ; Tuberoze by Cripple (173) ; Tulip by Comet (115) ; Cherry by Ladrone (353) ; by Danby (190) ; by Son of Favorite (252). By comparing his pedigree with others recorded in the early volumes of the American Herd Book, and leaving off the last cross (Ruby by Young Denton), it seems very reasonable to believe that he is a descendant of Imported Tuberoze, and that his pedigree as recorded is wrong. But at this late date (more than one-half a century since he was calved), no one is able to state (only by belief) whether his pedigree is right or wrong.

This cross occurs in some of the most fashionable families, and we believe is objected to only by breeders of high class pedigrees. For the benefit of those that do not object to the cross, we have endeavored to mark all pedigrees that have no other objectionable cross than *Rolla* as tracing (—) to *Rolla*.

O. M. HEALY.

BEDFORD, IOWA, Jan. 1, 1887.

EXPLANATION.

P S, means the Patton Stock; **M**, Mrs. Motte; **T**, the Teeswater Cow; **D**, the Durham Cow (of the Seventeen Importation); **KY I**, Kentucky Importation, many pedigrees tracing to or ending in "Tracing to the Kentucky Importation," meaning the importation of 1817; **COX**, the Cox Importation; **DAISY**, Daisy by Wild, 11134; **C**, Caroline by Dashwood, 9731; **R R**, Red Rose by Ernesty, 10017; **MULTIFLORA**, Multiflora by Walter, 11118 (of the Dun Importation). For remarks to the above families, see first volume of this work. **ROLLA**, Rolla (4991) pedigrees marked as tracing to Rolla are supposed to contain no other objectionable cross. **BEAUTY**, Beauty by Favorite ———, Imported by Thos. Weddle; **ROSE**, Rose by Skipton, Imported by Wm. Jackson; **B**, Britannia, Imported by H. Clay; **MILK SPRING**, Imported Milk Spring; **L R**, Lost Record; numerous families are included in this list, descendants of Imported Animals without pedigrees, or whose sires are without record, also pedigrees ending in "From the Imported Stock of Mr. ———" without showing direct descent from the imported Animals and those of unknown Importations. **WOODS**, animals supposed to not trace to any Importation. Animals with ——— after the name means that there is a cross of such blood in their pedigree, although it may be a distant one. Numbers in parenthesis (), refer to the English Herd Book, open to the American Herd Book.
